CONTEXT

Since October 7th, 2023, Israeli forces have been waging a relentless, [indiscriminate](#), [genocidal](#) campaign in the Gaza Strip. Backed by the U.S. government, the Israeli military and government officials have repeatedly declared their [intent to](#) destroy the population of Gaza. Food, water, medicine, fuel, electricity, and other essentials of life have been completely cut off from the Gaza Strip by Israeli forces. This constitutes a murderous escalation of the occupation that has subjected Palestine's population to [inhumane](#) living conditions over the past century.

Oberlin College continues to maintain investments in corporations complicit in the ongoing genocide of Palestinians in Gaza and in settler-colonial apartheid and ethnic cleansing throughout occupied Palestine. Many of these investments are held indirectly through private equity firms, making it difficult to discern our level of investment in companies aiding the Israeli occupation. We acknowledge and understand the board of trustees' fiduciary responsibilities and the importance of a healthy endowment to Oberlin's finances. Nevertheless, **we implore the trustees to examine Oberlin's financial link to war, oppression, and exploitation.** If Oberlin strives for a position of neutrality, divestment is necessary. Oberlin is taking a stance by maintaining investment in Israeli military violence.

It took [ten years](#) of student activism for Oberlin to finally agree to divest from institutions and corporations complicit in South African apartheid. Oberlin demonstrated both its willingness to take a moral stand and its ability to screen investments with its divestment [from fossil fuels](#). Additionally, in 2020, [President Ambar](#) declared: "Our focus on social responsibility became ever more critical in 2020 as we faced the Covid-19 pandemic, resulting economic downturn, and disturbing signs of increasing racism and bigotry in America. These events reinforced our need to take a more active and deliberate position to help address social issues on campus, in our community, and in our nation." Now we ask that you consider this proposal according to that stated responsibility.

It has now been 75 years since the Nakba of [1948](#). The state of Israel has been found to plausibly be committing genocide by the [International Criminal Justice](#) Court and has ignored calls from the U.N. Security Council for an immediate ceasefire. Oberlin's website asserts: "In accordance with Oberlin's history of action in response to 'instances of human suffering, natural calamity, and injustice,' the Board will consider proposals for divestment from entities that contribute to activities that 'shock the conscience.'" As you will see in the report below, the conscience of the Oberlin community is shocked.

WHY DIVEST?

- Boycott, Divestment, and Sanctions (BDS) is a Palestinian-led movement launched in 2005 and modeled after the South African anti-apartheid movement. BDS aims to nonviolently pressure Israel to meet the following three demands:
 1. End its occupation of all Arab lands and dismantle the separation wall;
 2. Recognize the fundamental rights of Arab-Palestinian civilians to full equality;
 3. Respect, protect, and promote the rights of Palestinian refugees to return to their homes and properties as stipulated in U.N. Resolution 194.
- Israel, and entities that support Israel's occupation of Palestine, have identified BDS as a tangible obstacle to the occupation, which has always relied on a vast pool of international financial and policy support to continue. As a result, since the installment of Israel's current right-wing government, entities that support the occupation have led a push to identify BDS-related campaigns as "anti-Semitic." This assertion is both false and harmful. As outlined in the demands above, BDS seeks only to ensure Palestinian rights and the equality and safety of Palestinians, who have been under threat from the occupation for 75 years. Jewish students and activists at Oberlin and around the world have joined and helped lead the call for BDS.
- We join the student bodies of countless other colleges and universities throughout the U.S. who are using their voices as economic stakeholders in their institutions to advocate for immediate and comprehensive divestment from the Israeli occupation.
- Our higher educational institutions hold both financial and social currency in the U.S. and on the global stage. Oberlin's choice to divest would send an important message to those profiting from the violence of the Israeli occupation and would pave the way for other institutions to follow suit. Our role and influence as a respected college in the public eye should not be underestimated, nor should our responsibility as an academic institution to engage critically with our global positionality.
- Note that our list refers only to companies contributing to and/or profiting from Israeli violations, as all investment that might support Palestinian militant groups is already banned by U.S. law.

REPORT ON COMMUNITY SENTIMENT

1. REFERENDUM (conducted 2024)

Call to Action:

Be it resolved that the students of Oberlin College:

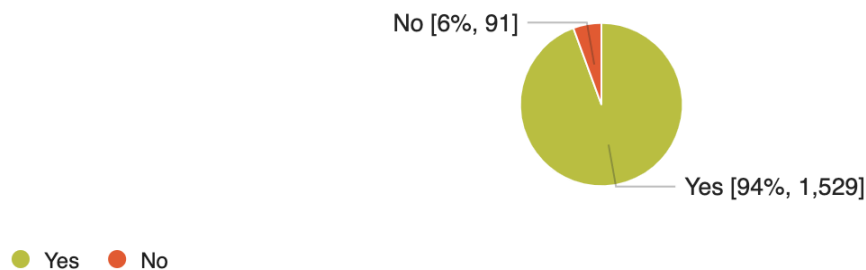

1. Demand that our College immediately divest from all funds with investments in corporations and institutions complicit in genocide, settler-colonialism, apartheid, and/or ethnic cleansing against Palestinians.
2. Demand that our College adopt the use of investment screens designed to ensure that none of Oberlin's investments support companies that:
 1. Provide products or services that contribute to the Israeli military occupation of Gaza and the West Bank, including East Jerusalem;
 2. Provide products or services for the maintenance and expansion of Israeli settlements in the occupied Palestinian territories;
 3. Establish facilities or operations in Israeli settlements in the occupied Palestinian territories;
 4. Provide products or services that contribute to the maintenance and construction of the Separation Wall.

Policy question:

"Do you agree with Oberlin College's Divestment from Israel?"

Voting results:

Q1 - Do you agree with Oberlin College's Divestment from Israel?

2. Alumni Letter (2024)

The letter, linked [here](#), was signed by more than 1,200 alumni.

The alumni who wrote the letter have been at the forefront of decades of student activism, including divestment proposals in 2013 and 2019. The student senate passed referendum votes in [2004](#) and 2013. These alumni were consulted on the drafting of this proposal.

3. Jewish Students Open Letter

The letter, linked [here](#), was signed by more than 140 current and former Jewish students

4. Black Students Open Letter

The letter, linked [here](#), was written and signed by 20 Black students currently at Oberlin.

CRITERIA FOR DIVESTMENT

1. Providing Israel with weapons and other military equipment, including any companies that provide products or services that contribute to violent acts against either Israeli or Palestinian civilians;
 - a. The first list is composed of companies providing Israel with weapons and military equipment used in its 2023-2024 attack on Gaza. These companies are recommended for immediate, full divestment as these attacks have been classified as genocide by [the International Court of Justice](#), the [U.S. federal court](#), as well as dozens of [U.N. experts](#) and [legal scholar](#);
2. Providing products and services that contribute to the maintenance and expansion of the Israeli military occupation of Gaza, the West Bank, and East Jerusalem;
3. Providing products or services to the maintenance and expansion of Israeli settlements in the occupied Palestinian territories;
4. Providing products and services that contribute to the construction of the Separation Wall;
5. Establishing facilities or operations in the illegal Israeli settlements.
